

„Children should never grow up too fast. “

Main Africana Activities

- **Rehabilitation of existing facilities** which provide support to the children.
- Provision of **equipment** necessary to run the services for children.
- **Protection and promotion of children's rights.**
- Donation of **Assistive and Mobility Devices** to the children with disabilities.
- Provision of **physiotherapy sessions** to the children with disabilities and teaching sessions to the caregivers.
- Organization of **workshops, trainings** and **seminars** for local technical staff.

How to get involved

There are several ways available for you to become part of Africana team and support children:

- **Partner with us** – for private businesses, companies and community organizations
- **Become Member / Volunteer** – for anyone interested in supporting Africana with their particular skillset and time
- **Fundraise** – for anyone interested in organizing a fundraising event for Africana
- **Donate** – for anyone interested in making monetary donation towards realization of our projects

Opening of our branch offices in Vancouver [Canada], Zurich [Switzerland], Melbourne [Australia] and Songea [Tanzania] is ongoing.

„Here for Children“

“Just because some things are, it doesn’t mean that they should be”

Our Founder

Founder and President of Humanitarian Association Africana, **Matej Skenderović**, has been working in international aid sector since 2008.

During this period, he worked in the **United Republic of Tanzania, Syrian Arab Republic, People’s Republic of China** and the **Republic of South Sudan**. Experience that he gained was mainly in Health, Child Protection and Nutrition sector.

Matej collaborated with many international aid agencies such as **Handicap International, Action Against Hunger, UNICEF, International Medical Corps, Save the Children, Doctors Without Borders, Polish Humanitarian Action** and etc.

Who we are

Africana is international, development aid, non-governmental organization founded in **2014** in the **Republic of Croatia** with main office in **Zagreb**.

Africana works in **Health, Child Protection** and **Education** sector.

We are currently running and preparing several projects in the **United Republic of Tanzania, Republic of Malawi** and the **Republic of Kenya** in Africa.

“Children always have the right to happy childhood regardless of where they were born or what their circumstances are. “

Africana Goals

Our main goals are provision of support to the **children with disabilities** and **other vulnerable children** in Africa, and the world, where Africana has presence.

Africana realises its goals through the projects with specific attention to the **increase of the knowledge, capacity and skills of the local community** and ensures **sustainability** and **local ownership** of the projects.

Africana follows the **UN Convention on the Rights of the Child** and **UN Declaration on Human Rights**.

„Children always have the right to play. “

Africana Approach

Africana most often works through **partnership with local community organizations**.

Some of our current partners are: **Mwangaza Foundation, Simama Tanzania, GRAMBAH charity organization** and **Congregation of the Mission Songea**.

Partnership enables **involvement** and **participation of local community** from the beginning.

It also, ensures that **local staff are trained, capable** and **confident** to fully take over the project after a period of time needed to complete the capacity building of the partner.

Africana continues to monitor projects after the handover is finalized for three years.
